**Group Research Project**

**Rel. 333 — Teachings of the Living [Latter-day, Modern] Prophets**

Professor: Robert L. Marrott

20 points possible (15 for Project paper; 5 for Evaluation paper).

Due date: To be announced.

1. You will be organized into a group of 3 to 7 students. There will be no more than nine groups per class.

2. The group should appoint one of their number to be the leader of the group.

3. The group leader, after consulting with the members of the group, will select three General Authorities from the list below, with alternatives in case other groups have selected the same General Authority. The group leaders will then negotiate together so that no General Authority is covered by more than one group.

4. The group will study 7 significant talks from each of the three General Authorities selected (21 talks total), looking for specific doctrines or principles discussed by these General Authorities. Resources can include those found in the McKay Library and on the Internet. The group should develop strategies for studying and printing.

5. The group will submit a document of at least 15 pages (10 to 12 point font, 1-1/2 or double-spaced, 1-inch margins) teaching the reader the doctrines and principles taught by the General Authorities. The writers should rely on their own words and not quote extensively from the General Authorities.

6. Format:

      4. Enter the semester and the year (e.g., Fall 2008).
   B. Body of the paper:

      2. Teach the doctrines and principles that you discovered to the reader.
      3. Enter the number (2) and name of the second General Authority your group selected, and his 7 talks.
