Auto 100 Syllabus

Instructor: Kevin Stegell

Text: THE CAR CARE BOOK by Ron Haeftner

Course Description: Auto 100 is a consumer awareness class. This course will describe the various operating systems found in the automobile's of today and explain what maintenance is necessary for these systems. How to purchase a new or used vehicle, financing, and insurance is also a topic associated with this course. This is NOT a "hands-on" class but a consumer information class only. Scheduling the automotive labs for our majors encompasses most the entire day. This is the reason that lab use is for auto majors only.

Grading: Grades will be based on your performance on: (1) Homework assignments, (2) Tests, (3) an Engine Component/Identification Exam, (4) the Final Exam and (5) 4 Automotive articles.

Homework: Chapter worksheets are found in the "Auto 100 Study Guide & Handouts".

Articles: These are 4 automotive articles dealing with the subjects used in the textbook. They can be taken from the net, magazine articles etc. Then read and highlight the important parts. Then present it to a person and tell them what you have learned. Then have them write a short, 3 line summary, of what they learned from you. It should be on the cover sheet. Also on the cover sheet include your name, date, class time, article number, and the name of the person it was presented to.

a. These assignments are due at the BEGINNING of the class period assigned.
b. Any late assignments receive 50% credit....10 min late or 3 days late - 50%
c. After 5 days the work will not be accepted. There are NO provisions for make-up.

It is important that you stay current in your work.

Attendance:

-Perfect attendance = extra credit of 2%.
-Five or more absences = Fail.

Honor Code: One of the major goals of BYU-Idaho is that of providing quality educational opportunities in a rich spiritual environment. To obtain this desired level of spiritual influence, students are asked to observe all points of the Honor Code including dress and grooming standards. We encourage our students to support this standard. The instructor is committed to the code and supports the University the observance of it.

Course Schedule: The instructor reserves the right to make changes, deletions, corrections, during the semester if believed to be necessary. You will be given notice in advance of any changes.

Good Luck
